

# Everyday English & Maths

## SQA Communication & Numeracy

## We are currently recruiting for our Numeracy and Communication evening classes.

The Communication class is on Tuesday evenings from 5.30-7.30pm.

The Numeracy class is on Thursday evenings 5.30-7.30pm.

Both courses are held at the Edinburgh Campus.

The courses are suitable for adults who are not currently enrolled on another JEC course and who want to improve their skills in Communication and/or Numeracy in order to:

- feel more confident
- enhance job prospects
- move on to further studying
- help their children with homework

The classes are small and informal. Students discuss what they want to learn with the tutor and work towards a certificate at a level that is appropriate for them.

The courses are FREE and no previous qualifications are necessary.

Students will meet the tutor for an informal interview before the course begins.
